All equipment prices include standard installation.*

While supplies last!

Poolife

Jandy

Welcome to the

SERVICE

2025 Early-Buy Catalog

SALE ENDS APRIL 28, 2025

• **A note about pricing:** As with many industries, the pool industry is experiencing price inflation due to a combination of factors, including limited supply. Pool chemicals, in particular, have been hit hard by price increases. We recommend **stocking up now** as our deep discount sale prices will not be available after the sale ends on April 28.

• A minimum order of \$99.00, not including tax, is required for free delivery in our service area. For orders less than \$99.00, delivery in our service area is available for \$40 or the order may be picked up at our store.

• We offer free delivery (no minimum) at the time of your pool opening, if Aqua Pool is opening your pool.

Schedule your pool opening for spring! Call or email as soon as possible! Please keep in mind that appointments are made on a “first come, first served” basis and may be affected by weather conditions. Email us at service@aquapool.com or call us at 860-623-8374.

**FREE CHEMICAL DELIVERIES ALL YEAR LONG
WITH MINIMUM PURCHASE OF \$99.00.**

Dear Pool Owners,

We would like to take this opportunity to let you know, or remind you, about the services that we offer throughout the calendar year. Our service company ranked **again** as one of the top 50 pool service companies in the country (Pool & Spa News – October 2024), has the most highly trained customer service representatives and is here to help.

We welcome phone calls or emails for technical support and/or to book appointments for service visits. All senior service technicians are licensed by the State of CT and all technicians are PHTA (Pool & Hot Tub Alliance) and factory trained. Please call to discuss any of the products mentioned in this catalogue or to inquire about all the new and innovative products in our wonderful swimming pool industry.

SOME SERVICES OFFERED:

- Spring openings and fall closings with a CT Licensed Service Technician.
- Maintenance programs – weekly, bi-weekly, and monthly services. We also offer vacation maintenance.
- Full retail store that offers free, professional, and computerized water testing along with chemicals, pool toys and equipment parts to purchase. We offer in-store shopping or curbside pickup.
- Office hours are Monday through Friday, 8:00 A.M. to 4:30 P.M.
- Store hours are Monday through Friday 8:00 A.M. to 5:00 P.M.
- Saturday hours are 9:00 A.M. to 1:00 P.M. during the peak pool season.
- **After-hours service** – Call 860-623-8374 to contact an on-call service representative, follow the prompts for technical support.

Please call 860-623-8374 or email service@aquapool.com with ANY questions. We thank you for your patronage and wish you a long and fun-filled pool season.

Sincerely,
Aqua Pool Service Team

East Windsor, minutes from I-91.

Pool Tips from Wilfrid

Aqua Pool's resident expert
and all-around Good Boy

1. Open the pool at least two weeks **BEFORE** you want to use it. This will allow time to get the water filtered and cleared up. You should expect that when the pool is uncovered, the water will **not** be “swim ready”.

2. Open the pool **before** it gets hot outside. Cold water inhibits algae and bacteria growth. Cold water also requires less filtration and fewer chemicals to stay clear (less expensive to operate a pool with cold water). And you won't have to work hard clearing up a green or cloudy water problem. There will be less work, and you will spend less money. Plus you get to enjoy the aesthetics of a beautiful pool versus a winter cover.

3. If you have a heater, schedule an inspection and cleaning service. This is not something normally included in a standard “pool opening”

Follow Wilfrid and Aqua Pool
on Instagram!

@AquaPoolCT

– consider it like an annual home furnace cleaning. The heater will run smoother all year – and more efficiently. Heaters are wonderful winter homes for mice, spiders and other critters, all of which cause issues and reduce efficiency.

4. If you are using us to open your pool, note the following:

a. The water level under the cover needs to be at the middle of the skimmer/tile-line prior to our arrival so we can leave the pool operating properly when done with the opening.

b. If you have a “tarp-style” cover, the water on TOP of the cover needs to be removed prior to our arrival or we will likely not be able to leave the pool operating properly. Also, there are additional charges to remove that water.

5. If you have a sensitive well and are you using that to top off the pool, slowly add water over a period of time. There is no rush and no need to stress out the well or the well pump.

6. Get your chemical supplies **early**. Material shortages and price increases are now the norm so don't wait to have the years' worth of supplies.

Does your pool need a face lift?

From complete renovations to small-tile repair

Free in-house consultations! Call to set up an appointment. Meet with a Pool Professional to discuss your options.

Make your pool look new again with the latest selection of tile, coping and interior finishes. Options include:

Pool & Spa Automation

It's never been this easy to have all the functions of your pool in the palm of your hand. Turn on any pool/spa items from your phone! Have your spa ready when you get home.

The Jandy iAquaLink App is the easy, fast, and fun way to control your pool equipment!

Just install one of the iAquaLink Web Connect

Devices to any Jandy AquaLink system and configure it for an internet connection.

It's that easy!

Works with Tablets, Smartphones and any web-enabled device. All brands.

Upgrade your Equipment with Eco-Friendly Products

ATTRACTIVE AND QUIET

The components of the Jandy equipment pad are similar in color and style resulting in a sleek, integrated look. Slim-design filters, low-profile heaters and whisper-quiet pumps make the Jandy equipment pad easy on the eyes and ears.

Jandy Pro Series Cartridge Filter

Set the bench mark in cartridge filtration loaded with user-friendly features – optimize surface area and help provide clean sparkling water. They are constructed of durable and corrosion resistance materials for maximum durability.

Description	Regular Price	Sale Price
CV/CL 340 - Filter 45,720 gallons of water in 6 hours	\$2,099.00	\$1,839.00*
CV/CL 580 - Filter 54,000 gallons of water in 6 hours	\$2,439.00	\$2,149.00*

JXI Heater - Propane or Natural Gas 400,000 BTUs with VersaFlo

JXI Heater with the VersaFlo activates the built-in flow bypass valve based on call for heat to avoid running water through the heat exchanger when the water does not need to be heated. It's energy efficient, with an 83% thermal efficiency rating and low-NOx design, surpassing strict DOE energy efficiency requirements. Lower emission means you can enjoy your pool with confidence, knowing your pool equipment is designed with the environment in mind.

Description	Regular Price	Sale Price
JXI Heater	\$6,199.00	\$5,489.00*

Call Our Service Department for Details!

*Prices include standard installation, a \$350 value. Does not include electrical or gas hook up when applicable. Our knowledgeable office staff can help with licensed contractors and scheduling if needed.

Save money! New eco-friendly pumps.

Jandy E Pump 2.7 hp – Variable Speed Pump

ClearO₃[™]: For Ozone Pure Water

- The ClearO₃[™] water purifying system is the perfect addition to any pool for the cleanest water. Ozone actively breaks down non-living waste in pool water which can combine with chlorine to form unhealthy by-products.
- ClearO₃[™] reduces chemical demand by up to 60%, making chemicals work more effectively.
- Introducing ozone into the pump actively removes chlorinated compounds, increasing the lifespan of pool filters and other pool equipment.

Description	Regular Price	Sale Price
ClearO ₃ [™]	\$1,379.00	\$1,029.00*

Jandy Salt Water Sanitizer

Experience a high quality of water your family will purely enjoy

The AquaPure system utilizes water softening technology to provide wonderfully smooth and gentle-on-the-skin water. Say good-bye to irritated eyes, itchy skin, green hair, faded swimsuits.

Just Add Salt! Dissolve low levels of ordinary salt in your pool and watch the AquaPure system work. Chlorine is generated automatically and naturally. Once the chlorine’s purification work is done it automatically converts back to salt.

Description	Regular Price	Sale Price
Jandy Salt Water Sanitizer	\$4,899.00	\$4,449.00*

POOL LIGHTING

Upgrade your pool/spa lights to LED fixtures.

- No more replacing of incandescent or halogen bulbs.
- LED Technology is the wave of the future in energy efficiency, lifetime value, and quality.
- LED is available in plain “white” or “color changing”.
- Most LED lights can be controlled by your pool automation system.

Contact us for pricing and further details.

Call Our Service Department for Details!

*Prices include standard installation, a \$350 value. Does not include electrical hook up when applicable. Our knowledgeable office staff can help with licensed contractors and scheduling if needed.

Aqua Comfort: The most economic way to heat your pool

- **State-of-the-Art Digital Technology**
Simple, precise and reliable. Our digital technology means the most advanced, efficient systems available
- **Easy to use, easy to maintain.**
- **Environmentally Friendly**
With no combustable by-products, Aqua-Comfort creates clean, efficient energy that is safe for the environment.

Description	Regular Price	Sale Price
ACT 1250 - 118,000 BTU	\$7,499.00	\$6,899.00*
ACT 1500 - 130,000 BTU	\$7,679.00	\$7,099.00*

Aqua Comfort Heat Pump Opti Flex

Increase heating efficiency at lower cost with the new, low-profile, small-footprint heat from Aqua Comfort.

Combine this heat pump with a gas heater and create the most versatile and efficient pool heating system - we call it Optiflex!

Heat pumps supply low cost heat to the pool, but generally require significant space and power. The new OptiFlex heat pump will allow you to heat the pool for less money!

Call for details.

*Prices include standard installation, a \$350 value. Does not include electrical hook up when applicable. Our knowledgeable office staff can help with licensed contractors and scheduling if needed.

Children Aren't Waterproof! Safety Tips

- There is no substitute for adequate supervision.
- Never leave a child alone out of eye contact in or near a pool or spa - **not even for a second!**
- Access to the pool or spa should be limited by locked doors and gates whenever swimming or soaking cannot be supervised.
- Keep toys, especially wheeled toys, away from pool or spa. A child playing with these could fall in accidentally.
- Do not allow anyone of any age to swim without a 'spotter' nearby.

Examples of good safety behavior by adults are important for your children!

Do not use pool if suction outlet covers are broken or missing.

SDX 2-Drain Cover

High Performance Safety Drain for pool safety.

- Comes with adaptable backplate to retrofit suction fitting up to 10" in diameter
- Available in many colors
- VGB compliant
- Drain covers need to be replaced 5 years from the date they are installed

Please contact the office for additional information and pricing. A scuba diver may be required at added charge.

FLOATING POOL ALARM: PA 25

Pool Patrol floats on any size, shape or type pool surface and will activate an alarm when children or pets fall into the pool. The sensing ring is adjustable so that it can be controlled to activate only when an object the size of a child or pet falls into your pool. The alarm comes with easy-to-use tie-down strings and hooks. This enables the Pool Patrol to be secured to the side of your pool.

Description	Regular Price	Sale Price
Floating Alarm: PA 25	\$251.99	\$199.99

SAFETY COVER

Merlin Industries, Inc. Professional Safety Covers
